Village of Clyde  
City Hall  
Clyde, Ohio

Gentlemen:

An inspection of the Clyde dump was made April 18, 1962 by Richard M. Dern, R.S., Sanitarian for this department.

It was noted that you have abandoned the sanitary land fill method of garbage disposal and the garbage is now being mixed with the rubbish on the surface of the ground and burned.

This is contrary to all sanitary regulations concerning dumps and an approved method of disposal must be instigated at once.

The facilities of your Health Department and the Ohio Department of Health are available to you for consultation in this matter.

Sincerely,

E. W. Arnold, M.D.  
Health Commissioner
